Summary

I’m having over all 8 Plus years of experience in Engineering projects, Maintenance of utilities and process related Equipment’s. Exposure in selection to installation of equipment’s along with qualification, validation activities. Looking forward to being a part of Challenging team player of highly qualified professional in a reputed Organization, Eager to work in a different kind environments, people and situations throughout the globe where I could utilize all my technical skills for the enhancement of the organization.

Skill Highlights

- Project management
- Material Procurement & Tracking of consumables usage.
- Energy Monitoring, Savings opportunities& Action plan
- Engineering QMS
- Maintenance and Operating Schedules
- Innovative
- Service-focused
- Organiser
- Qualifications and Validations

Certifications

- Authorized Electrical engineer with 33KVA supervisor license certificate by the government of Andhra Pradesh
- Trained and certified in First aid and power medicine.

Audit Exposure

- CDSCO, USFDA, MHRA.TGA, ANVISA

Education

- **B. Tech in Electrical and Electronics Engineering -2013**
 - VNR College of Engineering -JNT University-Kakinada -AP, INDIA.
- **Intermediate-Math’s, Physics, Chemistry-2008**
 - Sai Chaitanya Junior college Board of intermediate Education -AP, INDIA.

Experience

- **Assistant Engineering Manager- 05/2021 to till.**
- **Clonz Biotech Pvt Ltd, Genome valley-Hyderabad, INDIA,**
- Preparation of URS for Engineering equipment’s (Auto claves, Kill tanks, water system, HVAC, Electrical fired boilers, BMS &EMS etc.)
- Involved in preparation of consolidated CBA and TBA.
- Involved in DQ preparation with VRV vendor works for the analytical area.
- Coordinated with designing consultant in Floor planning, production area, Man material movements, Equipment positioning and utility area design part.
- Execution and monitoring of all site works as per approved GFC and IFC.
- Involved in Facility design with the Process team to create single use 4*2KL capacity for Biologics facility.
- Monitoring and planning to reduce unwanted energy loads in the plant area.
- Prepared project concepts and maintain optimal workflow.
- supporting to cross functional teams as well as all third-party vendors in execution of detailed facility design.

- Participated in all type of qualifications and validations for equipment's /instruments.
- Preparation of SOP'S, Layouts and BOQ for new and existing equipment's.
- Preparation of preventive maintenance and calibration schedules for equipment's/Instruments.
- Preparing Corrective Action, Preventive Action for breakdown calls
- Review,approval of DQ, IQ, OQ and PQ Documents nad Successful execution of qualification activiies of Utility and Process equipments

➤ **Senior Executive Projects, Formulations Engineering Maintenance** - 09/2020 to 04/2021.

➤ **Riconpharma India Pvt Ltd**, Uppal-Hyderabad, INDIA.

This facility is completely 23000 Sft working area with G+3 floors for Formulations R&D center.

- Monitoring and planning to reduce unwanted loads in the plant area.
- Coordinated with Principal Design Consulting Architect for execution in site level.
- Reviewing of TBA & CBA
- Involved in Complete Commissioning HT yard, MCC panels ,750 KVA DG set,220 KVA UPS.
- Coordinated with HVAC & Scrubber teams for designing and executing as per the freeze drawings & BOQ's.
- Involved in getting approvals from Local authorities for electricity load sanctioning and charging of HT side.
- Getting min 3 quotes from different vendors for each discipline, preparation of comparison statements and forwarding to management.
- Supervised execution of all interior packages by external vendors. GDS lines, clean room portions, light fixtures, fire sprinklers, smoke detectors, HVAC ducts all works in the entire clean room areas.
- Water distribution system works monitored and involved in 1000 LPH RO Generation Thermax system qualifications.
- Involved in HVAC scrubber qualifications. Supervised ETP/STP related works. Monitored all office furniture, ceiling, Conference rooms works
- Preparation of preventive maintenance and calibration schedules for equipment's/Instruments.
- Ensuring all Process related & Utility related equipment's maintenance activities completion in time

➤ **Executive Projects, Formulations Engineering Maintenance** - 04/20216 to 08/2020.

➤ **Biophore India Pharmaceuticals Pvt Ltd**, Hyderabad, INDIA.

- Water distribution system works monitored and involved in 1000 LPH RO Generation Thermax system installation and qualifications.
- Monitored entire electrical packages (Modular Boxes, Emergency, Raw power Lighting cabling, Cable schedules PDBS)
- Laying of CPVC Pipes for RAW Water, RO Water for total building.
- Gas Distribution Lines Gas bank, Main header, distribution to all labs. Gas Purification Chambers installation in Required GC labs.
- HDPE Pipes installation from Drain to Effluent System Tanks.
- Transformer, Main PCC panel, Vacuum Pumps, Reverse Osmosis Plant, UPS, Fire Hydrant System installed and involved with vendors at the time of commissioning. Involved and executed with Air Handling Units, Ducting laying and condensing unit's fixing.
- Fire Alarm System Smoke Detectors cable laying and fixing of detectors, Fume Hoods installation in all process labs gas and vacuum lines installation in hoods.
- Monitoring of Drain lines laying for VRF Air Condition system.
- Supported to vendors for commissioning of split, cassette Duct able type AC systems.
- Pneumatic systems Installation and Line Distribution to Vacuum Pumps & ALL Required Labs PDB Installations in all floors and Maintenance of Earth Pits.

➤ **Engineering & Maintenance activities**

- Preparation of SOP'S, Layouts and BOQ for new and existing equipment's.
- Preparation of preventive maintenance and calibration schedules for equipment's/Instruments.
- Ensuring all Process related & Utility related equipment's maintenance activities completion in time. (Like RMG, blenders, Shifters, coating machines, capsule filling, Compression machines, LAF, BSC, Pass boxes, Autoclaves, ovens, Lyo's, water system, stability chambers, DG sets, Air compressors, HVAC etc.)

➤ **Projects Electrical Engineer - 01/20214 to 03/2016.**

➤ **Elegant Engineers**, Pune, INDIA.

Whil working with Elgant few completed projects with all the electrical pacakges.

- Rise n shine Biotech
- Constair projects
- Ultra tech cements
